Also, we would like to review with you a few important items regarding guidelines for Advanced Placement Examinations.

Students **should** bring the following items to the exam(s):

- Two sharpened pencils with erasers
- Two ballpoint pens (black or dark blue)
- Two approved calculators - visit apstudents.org/courses to find the calculator for your subject
- A ruler or straight-edge if you are taking the AP Physics Exam
- A watch that does not have internet access, beep or make noise, or have alarm access

Students **should not** bring the following items to the exam(s):

- Electronic equipment includes cell phones, smartwatches, fitness trackers, wearable technology, cameras, recording or listening devices, or any electronic communication device. A student observed with any of these devices during testing or breaks may be dismissed from the exam and his/her test will be invalidated.
- Books, reference guides, notes, compasses, protractors, dictionaries, highlighters, or colored pencils
- Watches that beep or have alarms
- Food and/or drink
- **Backpacks will not be allowed in the testing room or the hallways outside of the testing room. Please leave them at home or store them in students' lockers.**

Finally, if you are absent either all or part of an exam day, a written excuse from your parent/guardian must be provided. Students are expected to attend classes before and after exams.

We wish you the very best of luck during these upcoming exams.

Sincerely,

Eugene Farrell
